

# PREMIUM 90™

## premium non-ionic surfactant

### PRINCIPAL FUNCTIONING AGENTS

Alkyl and alkylaryl polyoxyethylene glycol .....	90.0%
Constituents ineffective as spray adjuvants.....	10.0%
TOTAL.....	100.0%

Ingredients exempt from tolerance under CFR 40, 180.1001.

### CAUTION: KEEP OUT OF REACH OF CHILDREN

### PRECAUTIONARY STATEMENTS

Before using this product, read the entire label, including the condition of sale. Avoid contact with eyes. Harmful if swallowed. Avoid skin contact. Causes eye and skin irritation.

### STATEMENT OF PRACTICAL TREATMENT

- If Swallowed:** Do NOT induce vomiting unless directed to do so by medical personnel. Seek medical attention. Never give anything by mouth to an unconscious person.
- If In Eyes:** Flush with water for 15 minutes. Seek medical attention if irritation persists.
- If On Skin:** Wash the affected area with water for 15 minutes. Seek medical attention if irritation persists.
- If Inhaled:** Remove person to fresh air. If cough or other respiratory symptoms develop, seek medical attention.

### GENERAL INFORMATION

PREMIUM 90 is a general purpose non-ionic surfactant of the alkylaryl polyethoxyethanol type surface active agents. It can be used with most insecticides, fungicides, herbicides, acaricides, defoliants, desiccants, and wettable powders to improve performance of the active spray ingredient by giving them more uniform distribution and better wetting of the plant surface.

### DIRECTIONS FOR USE

For wettable powders and water-soluble materials, add this product in water before adding pesticide to spray tank. For emulsifiable products, add this product after a good emulsion is formed. SHAKE WELL BEFORE USING.

### USE RATES

Applications	PREMIUM 90 per 100 gal solution
Insecticides	3 to 8 fl. oz.
Fungicides	3 to 8 fl. oz.
Herbicides	1 to 2 pints
Acaricides	3 to 8 fl. oz.
Defoliants	1 to 2 pints
Desiccants	1 to 2 pints
Wettable powders	1 to 2 pints

### MIXING INSTRUCTIONS

Always mix this product in accordance with the instructions concerning adjuvants found on herbicide label. In the absence of specific mixing instructions, fill the spray tank 1/2 to 2/3 full with clean water. While the water is agitating, add tank mix ingredients in the following order: 1. PREMIUM 90. 2. Additional ammonium sulfate (if needed) 3. Dry flowables, dispersible granules, water-soluble packets 4. Flowables 5. Water-soluble herbicides 6. Emulsifiable concentrate 7. Finish adding water to final volume. Maintain agitation while spraying to ensure a uniform spray mixture.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Follow all governmental procedures for the disposal of agricultural spray solutions. Triple rinse container, empty rinsate into spray tank. Dispose of empty container according to approved local practices. Contact your County Agricultural Commissioner for disposal information.

### WARRANTIES—CONDITION OF SALE

Our recommendations for use of this product are based upon tests believed reliable. Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the Seller.

In no case shall the Seller be liable for consequential, special or indirect damages resulting from the use and/or handling of this product when such use and/or handling of this product is not in strict accordance with directions given herewith. The foregoing is a condition of sale by Seller and is accepted as such by the Buyer.
