

COBALT

GUARANTEED ANALYSIS

Cobalt (Co).....5.00%

Derived from Cobalt Chloride.

Also contains 11.0% organic acid complex derived from leonardite and/or composted manure.

DIRECTIONS FOR USE

•Shake Well. •HUMA GRO[®] **COBALT** is for use as a foliar nutrient.

•It can be applied with any combination of HUMA GRO[®] foliar nutrients to improve crop nutrient levels.

Suggested Rate per Acre

Method of Application	Field Crops	Tree and Vine Crops
Foliar broadcast spray.....	4 to 8 ounces	6 to 12 ounces
Foliar band spray.....	2 to 6 ounces	N/A
Sprinklers	4 to 8 ounces	6 to 12 ounces

TIMING AND FREQUENCY OF APPLICATION

COBALT should be applied when practical experience, visual observation, or tissue or soil analysis indicate a need for cobalt. **COBALT** may be applied every 7-10 days as required to meet nutritional needs. Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. **Note:** For maximum uptake and utilization, foliar applications of **COBALT** should be carried with HUMA GRO[®] MICRO[™], CROP-GARD[™], VITOL[®] or BREAKOUT[™]. Consult leaf analysis to determine specific crop needs. These recommendations and methods of application are basic guidelines intended to simplify product usage and maximize results.

Consult your local HUMA GRO[®] Representative or other agricultural specialist for specific crop recommendations.

This fertilizer is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.
