

# FULVA PRO

## GUARANTEED ANALYSIS

Total Fulvic Acid (FA).....25.00%\*

Derived from Oxidized Leonardite

## DIRECTIONS FOR USE

### Foliar Directions

Apply **FULVI PRO** at 1 quart per acre mixed with most macro or micro nutrients.  
If applied alone, mix with 10 gallons of water.

### Pesticide and Defoliants Directions

Apply 1 quart per acre with any non-selective contact herbicide or defoliant. It is not recommended to mix with selective herbicides as **FULVI PRO** may carry excessive amounts into the existing crop causing damage.

\*The U.S. Standard for ascertaining Fulvic Acid has not been established.

This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.

#### Conditions of sale:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller.
