 Available Phosphate (P2O5)
 5.00%
 Iron (Fe)
 0.10%

 Manganese (Mn)
 0.05%
 0.10% Chelated Iron (Fe)

 Zinc (Zn)
 0.05% Chelated Zinc (Zn)

Derived from Phosphoric Acid, Iron HEDTA, Manganese EDTA, Zinc EDTA. Chelating Agents are Hydroxyethylethylenediaminetriacetate and Ethylenediaminetetraacetate.

DIRECTIONS FOR USE

•Shake Well. •MICRO-F™ is compatible with all HUMA GRO® nutrients and most foliar nutrient sprays, liquid fertilizers, fungicides, insecticides, plant growth regulators and herbicides in a foliar application. •Jar test if compatibility is in question.

	Jugge	sted hate per Acre
Method of Application	Field Crops	Tree and Vine Crops
Foliar broadcast spray	8 to 16 ounces	8 to 24 ounces
Foliar band spray	4 to 10 ounces	
Sprinklers: solid set, pivot, linear, draglines, etc	1/4 to 3 gallons	

TIMING AND FREQUENCY OF APPLICATION

MICRO-F[™] is for use as part of an integrated plant disease prevention and management program. **MICRO-F**[™] can be applied alone or used as a foliar carrier for nutrient sprays, fungicides, insecticides, plant growth regulators and some herbicides. Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. Start initial application prior to anticipated disease occurrence and continue applications at 7 to 21 day intervals during periods of heavy disease pressure. This fertilizer is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.

Conditions of sale:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller.

CAUTION: KEEP OUT OF REACH OF CHILDREN
