

TUFF TISSUE®

GUARANTEED ANALYSIS 0-0-13

Soluble Potash (K_2O) 13.00%

Derived From Potassium Hydroxide

APPLICATION

Apply 3 to 6 ounces in 2.5 gallons or more of water per 1,000 square feet of turf as often as needed.
Contents are highly concentrated and must be mixed with water prior to application.

DESCRIPTION

HUMA GRO® TUFF TISSUE™ is a blend of potassium, calcium and silica designed to enhance the turf's ability to withstand heavy traffic. Turf plants develop a more "upright" or "stiff" leaf quality and are more compact, increasing resistance to wear and improving the playability of the surface.
TUFF TISSUE™ is an excellent product for use prior to and during tournaments and other heavy use periods.
