

Z-PHOS

GUARANTEED ANALYSIS

0-12-0

Available Phosphate (P ₂ O ₅)	12.00%
Sulfur (S)	3.00%
Manganese (Mn)	1.00%
Zinc (Zn)	5.00%
Copper (Cu)	0.35%

Derived from Copper Sulfate, Manganese Sulfate, Phosphoric Acid, and Zinc Sulfate.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

DIRECTIONS FOR USE

HUMA GRO® Z-PHOS® is intended for use as a foliar nutrient spray. Z-PHOS® can be applied with fungicides, tank mixes, and HUMA GRO® nutrients.

Method of Application	Suggested Rate per Acre Field Crops	Tree and Vine Crops
Foliar broadcast spray	32 to 64 ounces	32 to 64 ounces
Foliar band spray	16 to 32 ounces	N/A
Sprinklers: solid set, pivots, linear, drag lines, etc.	32 to 64 ounces	32 to 64 ounces

TIMING AND FREQUENCY OF APPLICATION

Application timing, intervals and rates may vary according to individual crop requirement, stage of development, available nutrients in the soil, and overall status of the crop. Z-PHOS® should be applied when practical experience, visual observation, or tissue or soil analysis indicate a need for Z-PHOS®. Z-PHOS® may be applied every 7-10 days as required to meet nutritional needs. Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. Consult your local HUMA GRO® Representative or other agricultural specialist for specific crop recommendations. This fertilizer is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.

Conditions of sale:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller.
