PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING: Causes skin and eye irritation. Harmful if swallowed. Do not get on skin, in eyes or on clothing. Take off contaminated clothing and wash before reuse. If swallowed, call poison center, doctor/physician if you feel unwell. Do not eat, drink, or smoke when using this product. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, chewing gum, using tobacco or using the toilet.

PERSONAL PROTECTION EQUIPMENT (PPE)

Wear eye protection, face protection, protective clothing and protective gloves.

IN CASE OF FIRE: Use appropriate media to extinguish.

FIRST AID

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- If skin irritation occurs, get medical advice.

IF IN EYES:

- Rinse cautiously with water for 15 to 20 minutes.
- Remove contact lenses, if present and easy to do so. Continue rinsing.
- If eye irritation persists, get medical attention.

IF SWALLOWED:

- Call a poison control center or doctor if you feel unwell.
- Rinse mouth.

IF INHALED:

- Move person to fresh air and keep comfortable.
- Call poison control center or doctor for treatment advice if you feel unwell.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency call CHEMTREC at 1-800-424-9300.

GENERAL INFORMATION

WARNING: Contains Boron. Do not use on plants sensitive to Boron. The use of this product on any crop(s) other than those recommended may result in serious injury to the crop(s).

BEAU-RON 15G releases slowly in the soil, giving the plant a longer availability of elemental Boron. This product will not easily leach in the presence of heavy rainfall. Because of its solubility in water, this product causes low effects of toxicity. This product contains no moisture; it contains only the elements needed.

PRINCIPAL USES

This product is used to supply plants the necessary elemental Boron during the crop period. It prevents Boron deficiencies that could affect crop yields and helps establish a longer-lasting balance of Boron in the soil.

GENERAL RECOMMENDATIONS

Apply according to soil test and yield goals; generally this use is about 0.5 to 1.5 pounds of elemental Boron per acre in a dry fertilizer blend. Use lower amounts for maintenance or for band applications.

NOTE: Rates and timing of Boron applications are dependent on local conditions and should always be made as a result of soil and/or plant tissue analysis and in conjunction with your local agricultural authority.

Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

FOR USE IN WISCONSIN: Beau-Ron 15G can be applied to these crops commonly grown in Wisconsin and requiring a medium to high level of Boron (B): Field Crops — Alfalfa, Clover, Rape (Canola), Sunflowers; Fruit Crops — Apples; Vegetable Crops — Beets (red table), Broccoli, Brussels sprouts, Cabbage, Carrots, Cauliflower, Celery, Lettuce, Spinach, Tomatoes.
