

SPECIMEN LABEL

DRI®

Nonionic Surfactant

Principal Functioning Agents

Block polymer of carbonyldiamide polyoxyalkylated glycol adduct ..94%
Inert ingredients.....6%
Total.....100%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

CA Reg. No. 45989-50014-AA

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

CAUTION-Hazards to humans and domestic animals. Avoid contact with skin, eyes or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Read the entire label before using this product. Use only according to label instructions. Read Limited Warranty, Conditions of Sale, and Warranty Disclaimer before buying or using. If terms are not acceptable, return at once unopened for full refund.

First Aid Statement

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center.

Skin Irritation: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Storage and Disposal

Storage: Store product in original bag only. Do not store with oxidizing agents.

Disposal: Completely empty contents of bag into spray application equipment. Dispose of empty bags in a sanitary landfill or by authorized incineration.

General Information

Dri Nonionic Surfactant is a spreader-activator. It may be tank-mixed with herbicides or nutrients that recommend the use of a nonionic surfactant or spreader-activator. Dri Nonionic Surfactant improves spray coverage and penetration of plant foliage.

Dri Nonionic Surfactant is a white micro-granule which dissolves readily in cold water. Dri Nonionic Surfactant contains an anti-foam agent.

Dri Nonionic Surfactant contains no volatile organic compounds and is nonflammable.

Not For Aquatic Use

Directions For Use

Always read and follow all label directions, mixing instructions, and precautionary statements of the herbicide or nutrient being used.

Dri Nonionic Surfactant should only be used when the herbicide or nutrient label recommends or suggests the use of a nonionic surfactant or spreader-activator.

Determining Use Rates

The use rate of Dri Nonionic Surfactant should be determined by the *Use Directions* on the label of the herbicide or nutrient to be applied. Labels will recommend adjuvant use rates in terms of pints per 100 gallons of spray solution or percentage of spray solution. Use the chart to convert liquid surfactant use rate to the equivalent use rate of Dri Nonionic Surfactant.

Liquid Equivalence	Dri NIS	Dri NIS	Ounces Saved
Pts/100 Gal	Oz/100 Gal	% v/v Solution	Oz Saved
1	12	.125%	4
2	24	.25%	8
4	48	.50%	16
8	96	1.0%	32

If herbicide or nutrient label recommends the use of a nonionic surfactant or spreader-activator but provides no use rate add 12 to 24 ounces of Dri Nonionic Surfactant per 100 gallons of water.

Preparing Spray Solution

Thoroughly clean all spray mixing and application equipment prior to and following each use. Unless directed otherwise by mixing instructions on the label of product to be tank mixed with Dri Nonionic Surfactant, follow these mixing instructions.

- 1) Fill solution tank 1/2 full of water and begin agitation.
- 2) Add Dri nonionic surfactant to the solution. Do not premix Dri Nonionic Surfactant as a slurry before adding to spray solution.
- 3) Add remaining tank-mix products in the following order: dry flowables and water dissolvable granules, wettable powders, flowables, solutions and emulsifiable concentrates.
- 4) Continue filling while agitating until all added products are thoroughly mixed into spray solution. Do not mix Dri Nonionic Surfactant directly with undiluted herbicides or tank mix partner.

Notice-Read Carefully

Limited Warranty and Conditions of Sale

In no event shall KALO, Inc., manufacturer or seller be liable for special, incidental, or consequential damages, or for damages in their nature of penalties relating to the goods sold. KALO, Inc., manufacturer or seller shall not be liable to buyer or user by way of indemnification to customers of buyer, if any, or for any damages or sums of money, claims or demands whatsoever, resulting from or by reason of, or rising out of the misuse, or failure to follow label warnings or instructions for use, of the goods sold by KALO, Inc., manufacturer or seller. Buyer or users exclusive remedy and KALO, Inc., manufacturer or sellers total liability shall be for damages not exceeding the cost of the product.

Warranty Disclaimer

The goods sold to you by this agreement are furnished as is by KALO, Inc., manufacturer, or seller, and are subject only to the manufacturer's warranties if any, which appear on the labels of the products. KALO, Inc., the manufacturer or seller, make no other warranties, guarantees or representations of any kind to buyer or user, either expressed or implied or by usage of trade, statutory or otherwise, with regard to the product sold, included but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Ineffectiveness, or other unintended consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of KALO, Inc., manufacturer or seller. In no case shall KALO, Inc., manufacturer or seller, be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer or its customers shall assume all such risks. Tests have not been carried out under all possible use conditions, and KALO, Inc., manufacturer or seller, cannot and do not warrant that the product is compatible with all other chemicals.

The law of the state from which such goods are to be shipped shall govern the validity, interpretations and performance of this agreement with respect to goods delivered. This writing contains all of the representations and agreements between buyer, KALO, Inc., manufacturer and seller, and no person or agent of KALO, Inc., manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to the goods.

Nonionic Surfactant

Principal Functioning Agents

Carbonyl diamine, polyoxyethylene-polyoxypropylene,
beta-hydroxy-tricarboxylic acid.....96%
Constituents ineffective as spray adjuvants.....4%
Total.....100%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

WA Reg. No. 45989-70002

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

May cause eye and skin irritation. Avoid contact with eyes or skin. Wear protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

First Aid Statement

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

Storage and Disposal

Storage: Store in a cool, dry place in original unopened bag. Do not contaminate water, food or feed by storage or disposal. If spill occurs, do not attempt to clean up with water, as area will become slippery. Simply sweep and dispose of material.

Disposal: Empty bags should be disposed in a sanitary landfill or by incineration, or by open burning if allowed by state and local authorities.

General Information

Dri Nonionic Surfactant is a spreader-activator. It may be tank-mixed with herbicides or nutrients that recommend the use of a nonionic surfactant or spreader-activator. Dri Nonionic Surfactant improves spray coverage and penetration of plant foliage.

Dri Nonionic Surfactant is a white micro-granule which dissolves readily in cold water. Dri Nonionic Surfactant contains an anti-foam agent.

Dri Nonionic Surfactant contains no volatile organic compounds and is nonflammable.

Use Rates

The use rate for Dri Nonionic Surfactant should be determined by the Use Directions on the label of the herbicide or nutrient to be tank mixed with this product. Labels will recommend adjuvant use rates in terms of pints per 100 gallons of spray solution or percentage of spray solution. Use the chart to convert liquid surfactant use rate to the equivalent use rate of Dri Nonionic Surfactant.

Liquid Nonionic Surfactant	Recommended Rate for DRI	V/V% Equivalent
1	12 dry ounces	.125%
2	24 dry ounces	.25%
4	48 dry ounces	.50%
8	96 dry ounces	1.0%

If herbicide or nutrient label recommends the use of a nonionic surfactant or spreader-activator but provides no use rate add 12 to 24 ounces of Dri Nonionic Surfactant per 100 gallons of water.

Mixing Instructions

Tank mix procedures: Always add DRI nonionic surfactant to the spray tank first to ensure proper mixing.

Mixing Order:

- 1) Fill tank 1/2 to 1/3 full of water and begin agitation.
- 2) Slowly add the required amount of DRI nonionic surfactant and allow product to completely dissolve.
- 3) Continue filling spray tank with water during agitation and then add other tank mix components as herbicide label directs.

Screen size in nozzle or line strainers should be no finer than 50 mesh. Maintain good agitation at all times until the contents of the tank are sprayed. If mixture is allowed to settle, thorough agitation is required to re-suspend mixture before spraying is resumed. When using this product or any dry, water soluble powder, always monitor the spray pattern and regularly check line strainers to ensure maximum spray nozzle performance. If refilling a partially full tank, take care to avoid exceeding recommended use rate for this product.
