FOAM-DYE™

Concentrate for Higher Visibility Foam

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Important

Do not take internally. Avoid contact with eyes and skin. In case of eye contact, flush with large amounts of water and consult a physician. Do not re-use this container. Keep from freezing.

General Information

Foam-Dye is a highly concentrated and safe colorant, which when added to a foam solution tank, will produce a colored and highly visible foam dye.

Applicators of fertilizers and pesticides will discover the ease of application when guided by a trail of brilliantly colored foam marks.

Adverse field conditions such as sun-bleached stubble, heavy crop residue, snow, sand or alkaline areas will restrict the visibility of normal foam marks. However, by adding Foam-Dye to the foam solution tank, the user will eliminate this costly and frustrating situation.

An added benefit of coloring foam is if by chance the foam marks "drain" or dissipate prior to the return trip across the field, a trail of colored "spots" will remain on the field surface to easily guide the user.

Foam-Dye will not reduce the expansion capability of foam solution.

This product will not harm the soil or crop.

Directions for Use

Add 1 oz. of Foam-Dye for each 10 gallons of foam concentrate solution.

Storage and Disposal

Store above 32°.
