General Information

Crop Oil Concentrate is a blend of a surfactant and a nonphytotoxic superior type of agricultural spray oil designed for use with a broad range of postemergence herbicides as well as desiccants, defoliants, and other pesticide uses. Crop Oil Concentrate increases the activity of herbicides and, therefore, care should be exercised when herbicide spray containing Crop Oil Concentrate is applied to new varieties or highly inbred lines not previously treated with spray tank adjuvants. Use caution when applying with herbicides. Crop Oil Concentrate may increase the effectiveness of the spray mixture. If mixture has not been used before, it is recommended that small test areas be treated before undertaking large-scale application.

Directions For Use

Read and follow the precautions and directions for use on this label and the pesticide it is being applied with.

MIXING: Fill spray tank 1/2 full, add the desired amount of herbicide and continue filling. Add Crop Oil Concentrate last. After filling, continue agitation. Always follow pesticide label directions, acceptable practices and advice from your crop consultant.

APPLICATION RATES

AIR: 1 to 3 pints in 2 to 15 gallons of water.

GROUND: 1 to 8 pints in 15 to 100 gallons of water.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Keep container tightly closed and DO NOT allow water to be introduced to contents of this container. DO NOT reuse this container.

Pesticide/Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on the label.
