

SPECIMEN LABEL

MODIFIED VEGETABLE OIL™

Methylated Seed Oil

Principal Functioning Agents

Modified vegetable oil, alkylphenol ethoxylate,	
polysiloxane.....	100.0%
Total.....	100.0%

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180.

CA Reg. No. 45989-50016-AA
WA Reg. No. 45989-03002

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Precautionary Statements

Hazards to Humans and Domestic Animals

Caution-Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Prolonged skin contact may cause drying and irritation. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Inhalation of spray mist may be irritating to nose and throat. Ingestion may be extremely irritating to mouth, throat and respiratory tract.

Personal Protective Equipment: Gloves and eye protection are required when handling this product. Wear chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks, when using **Modified Vegetable Oil (MVO)**.

First Aid

If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Always call a poison control center or doctor for treatment advice.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Always call a poison control center or doctor for treatment advice.

If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Always call a poison control center or doctor for treatment advice.

General Information

Modified Vegetable Oil (MVO) is a unique blend of highly refined and modified spray oil and superior nonionic surfactants. MVO's chemistry allows for superior wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve coverage. The addition of MVO to a spray tank solution will improve a spray application by physically modifying the deposition and wetting characteristics of the spray solution, the result being a more uniform spray deposit. This product cannot be used for aquatic applications. The use of MVO can increase pesticidal activity where the following factors occur, but is not limited to: 1) When used in areas of the country with low relative humidity and high temperatures, 2) When target species are larger than label recommendations at time of application.

Directions For Use

This herbicide label will recommend the use of a modified vegetable oil and provide specific use rates, mixing and application instructions, and any additional precautionary statements. Typical use rate for MVO is 1.5 to 2.0 pint/acre. The 2.0 pint/acre rate may be required if weed populations are extreme or if plants are stressed at the time of treatment. Always add MVO last to the spray mixture after herbicides have been added and agitated. Higher rates may be required on hard to control weeds or weeds which are under stress.

NOTE: The application rates on this label are based on pesticide labels which recommend the use of a methylated seed oil or nonionic surfactant. Use the rate recommended on the pesticide label. A compatibility test is recommended prior to use. Always read and follow all label directions of the herbicide being applied.

Mixing

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water. If foaming is anticipated, the addition of an antifoaming agent should be added before pesticides, nutrients, or MVO. Add pesticides and/or fertilizers as directed by label or in the following sequence: 1) Micronutrients and fertilizers, 2) Dry flowables and dispersible granules, 3) Flowables, 4) Water soluble pesticides, 5) Emulsifiable concentrates. Continue agitation and add MVO. After the addition of MVO, reduce agitation and allow to mix for 1 to 2 minutes. Continue filling tank while under minimal agitation. **NOTE:** For optimum results, spray mixes containing MVO should be applied within 36 hours.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Keep container tightly closed and DO NOT allow water to be introduced to contents of this container. DO NOT reuse this container.

Pesticide/Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

Notice-Read Carefully

Limited Warranty and Conditions of Sale

In no event shall KALO, Inc., manufacturer or seller be liable for special, incidental, or consequential damages, or for damages in their nature of penalties relating to the goods sold. KALO, Inc., manufacturer or seller shall not be liable to buyer or user by way of indemnification to customers of buyer, if any, or for any damages or sums of money, claims or demands whatsoever, resulting from or by reason of, or rising out of the misuse, or failure to follow label warnings or instructions for use, of the goods sold by KALO, Inc., manufacturer or seller. Buyer or users exclusive remedy and KALO, Inc., manufacturer or sellers total liability shall be for damages not exceeding the cost of the product.

Warranty Disclaimer

The goods sold to you by this agreement are furnished as is by KALO, Inc., manufacturer, or seller, and are subject only to the manufacturer's warranties if any, which appear on the labels of the products. KALO, Inc., the manufacturer or seller, make no other warranties, guarantees or representations of any kind to buyer or user, either expressed or implied or by usage of trade, statutory or otherwise, with regard to the product sold, included but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Ineffectiveness, or other unintended consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of KALO, Inc., manufacturer or seller. In no case shall KALO, Inc., manufacturer or seller, be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer or its customers shall assume all such risks. Tests have not been carried out under all possible use conditions, and KALO, Inc., manufacturer or seller, cannot and do not warrant that the product is compatible with all other chemicals.

The law of the state from which such goods are to be shipped shall govern the validity, interpretations and performance of this agreement with respect to goods delivered. This writing contains all of the representations and agreements between buyer, KALO, Inc., manufacturer and seller, and no person or agent of KALO, Inc., manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to the goods.
