

SPECIMEN LABEL

SAV-OIL™

Low Use Rate Crop Oil Replacement Blend of Petroleum Oil and Nonionic Surfactant

Principal Functioning Agents

Phytobland Paraffinic Oil.....	60.0%
Alkylphenol ethoxylate and tall oil fatty acids.....	39.0%
Constituents ineffective as spray adjuvant.....	1.0%
Total.....	100.0%

All ingredients are exempt from requirements of a tolerance under Title 40 CFR 180 for use on growing crops and raw agricultural commodities. Contains Petroleum Distillates.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Precautionary Statement

Caution-Hazards to human and domestic animals. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear chemical resistant gloves when mixing or handling concentrate. Wash thoroughly with soap and water after handling.

First Aid

Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Ingestion: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

General Information

Sav-Oil is a nonionic blend of special surfactants and highly refined spray oil that is designed for use with a range of pesticides where an oil adjuvant is recommended. Sav-Oil works to improve the pesticide application by modifying the wetting and deposition characteristics of the spray solution. Sav-Oil increases the activity of most herbicides; therefore, care must be taken in treating sensitive crops during periods when plants are subjected to drought stress, high temperature and high humidity. Sav-Oil is effective when used with air induction nozzles.

Mixing

Fill the spray tank one half full of water. Add the required amount of pesticide and AMS, if required, while agitating. Add remainder of water. Be sure to allow sufficient time for Ammonium Sulfate Solutions and DF Formulations to solubilize. Add the recommended amount of Sav-Oil last and continue agitation until completion of spraying.

NOT FOR AQUATIC USE

Directions for Use

Read directions and conditions of sale and warranty before purchasing or using this product. Use strictly in accordance with accompanying pesticide label warnings and directions. Sav-Oil may be applied by ground, CDA or aerial application equipment along with any other spray equipment recommended by the pesticide label.

For Ground Applications: Sav-Oil can be substituted for traditional 83/17 Crop Oil spray adjuvants at significantly lower use rates. Sav-Oil is generally recommended at a rate of 2 quarts per 100 gallons (0.5% v/v) of spray solution. For spray volumes below 12.5 gallons per acre, use Sav-Oil at 1 pint to the acre. When substituting Sav-Oil in place of standard crop oil concentrate adjuvants, refer to conversion table below. Always follow recommendations of the pesticide label if higher rates are required.

<u>Conventional Crop Oil Concentrate Label Rates</u>	<u>Sav-Oil Equivalent Rates</u>
1 quart per acre	1 pint per acre
1 gallon per 100 gallons	1/2 gallon per 100 gallons
2 to 4 quarts per 100 gallons	1 to 2 quarts per 100 gallons
1 to 2 gallons per 100 gallons	1/2 to 1 gallon per 100 gallons

DO NOT ADD THIS PRODUCT AT A RATE THAT
EXCEEDS 2.5% v/v OF SPRAY VOLUME.

Aerial, Low Volume, CDA: Use Sav-Oil at 2 to 8 fl. oz. per acre or follow rate recommendations on the pesticide label if higher rates are required. Generally, Sav-Oil will provide equivalent results at one-half the use rate of traditional crop oil concentrate adjuvants.

Storage and Disposal

Prohibitions: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

Storage: Store in original container only and keep sealed. Store in closed storage areas. Use caution when moving, opening, closing or pouring.

Adjuvant Disposal: Improper disposal of excess spray mixtures or rinsate is a violation of Federal law. Wastes resulting from use of this product may be disposed of through on site spray application or at an approved waste disposal facility.

Container Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at <www.acrecycle.org>. Decontaminated containers may also be disposed of in a sanitary landfill.

Notice-Read Carefully

Limited Warranty and Conditions of Sale

In no event shall KALO, Inc., manufacturer or seller be liable for special, incidental, or consequential damages, or for damages in their nature of penalties relating to the goods sold. KALO, Inc., manufacturer or seller shall not be liable to buyer or user by way of indemnification to customers of buyer, if any, or for any damages or sums of money, claims or demands whatsoever, resulting from or by reason of, or rising out of the misuse, or failure to follow label warnings or instructions for use, of the goods sold by KALO, Inc., manufacturer or seller. Buyer or users exclusive remedy and KALO, Inc., manufacturer or sellers total liability shall be for damages not exceeding the cost of the product.

Warranty Disclaimer

The goods sold to you by this agreement are furnished as is by KALO, Inc., manufacturer, or seller, and are subject only to the manufacturer's warranties if any, which appear on the labels of the products. KALO, Inc., the manufacturer or seller, make no other warranties, guarantees or representations of any kind to buyer or user, either expressed or implied or by usage of trade, statutory or otherwise, with regard to the product sold, included but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Ineffectiveness, or other unintended consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of KALO, Inc., manufacturer or seller. In no case shall KALO, Inc., manufacturer or seller, be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer or its customers shall assume all such risks. Tests have not been carried out under all possible use conditions, and KALO, Inc., manufacturer or seller, cannot and do not warrant that the product is compatible with all other chemicals.

The law of the state from which such goods are to be shipped shall govern the validity, interpretations and performance of this agreement with respect to goods delivered. This writing contains all of the representations and agreements between buyer, KALO, Inc., manufacturer and seller, and no person or agent of KALO, Inc., manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to the goods.
