

HEXUS™ AC-L

WATER CONDITIONING AGENT - AMINE COMPATIBLE

PRINCIPAL FUNCTIONING AGENTS:

Ammonium salt of sulfuric acid, 2-hydroxy-1,2,3-tricarboxylic acid, triphosphoric acid, pentasodium salt.....	42%
Constituents ineffective as spray adjuvants	58%
TOTAL	100%

KEEP OUT OF REACH OF CHILDREN

WARNING

HAZARD STATEMENTS

Causes mild skin irritation.

Causes eye irritation.

May be harmful if inhaled.

PRECAUTIONARY STATEMENTS

General:

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read label before use.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.

Response:

IF INHALED: Call a POISON CENTER or doctor/physician if you feel unwell.

If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

NET CONTENTS: 2.5 Gal (9.46 L)

Harmful if swallowed, inhaled, or absorbed through skin. Avoid contact with eyes and skin, may cause irritation. Avoid breathing spray mist.

ADDITIONAL FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when call or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment.

HEXUS AC-L contains a blend of highly-effective water conditioning agents that are specifically designed to minimize the interaction between ions and active ingredients. HEXUS AC-L contains ammonium ions and has been shown to activate glyphosate tank mixes. HEXUS AC-L can be used with any pesticide where interaction with ions may occur and/or ammonium sulfate is recommended in the tank mix. HEXUS AC-L should be used wherever acidifiers and acidic tank mixes are allowed. HEXUS AC-L can be used with herbicides, fungicides, insecticides and many other pesticides. HEXUS AC-L is especially effective when used with weak-acid herbicides such as glyphosate and 2,4-D.

DIRECTIONS FOR USE

HEXUS AC-L does not contain surfactant or oil. If the pesticide label recommends or requires the use of a surfactant or oil, these should be added along with HEXUS AC-L. This product lowers pH into a range which enhances the performance of most weak acid pesticides. Use with pesticides that are compatible with lower pH. Do not use with copper-containing fungicides. Minimize worker exposure by using measures that are required for pesticide handling. HEXUS AC-L may be added before or after the pesticide is added to the tank mix. Although addition beforehand will prevent unwanted interactions, the interaction may be reversed afterward, although addition of larger amounts may be required. Never exceed the highest recommended dose.

RECOMMENDED USE RATES

Ground: 0.5 to 2 quarts per 100 gallons

Aerial: 1 to 2 quarts per 100 gallons.

Water Conditioning: 1 to 5 pints per 100 gallons of spray tank solution is highly effective as an acidifier and water conditioner. 8.5 lbs. of AMS per 100 gallons has been proven to be replaced by 2 quarts of HEXUS AC-L.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Store in a cool, dry place. Keep container sealed when not in use.

PRODUCT DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
