

IMMERSE™ 80-20

PEEL BACK BOOK HERE ▲

NONIONIC SURFACTANT

PRINCIPAL FUNCTIONING AGENTS:

Alkyl phenol ethoxylate, propylene glycol, free fatty acids	80.0%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT	20.0%
TOTAL:	100.00%

ALL INGREDIENTS EXEMPT FROM THE REQUIREMENTS OF A TOLERANCE UNDER 40 CFR 180.

HAZARD STATEMENTS

May be harmful if swallowed.
May be harmful in contact with skin.
May be harmful if inhaled.
Causes mild skin irritation.
Causes eye irritation.

PRECAUTION: Wear protective gloves and clothing. Do not breathe mists/vapors. Remove contaminated clothing and wash before reuse.

PRECAUTIONARY STATEMENTS

General:

If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.

Response:

Call a **POISON CENTER** or **doctor/physician** if you feel unwell.

IF INHALED: Call a **POISON CENTER** or **doctor/physician** if you feel unwell.

If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

PERSONAL PROTECTIVE EQUIPMENT

Wear chemical-resistant gloves, long-sleeved shirt and long pants, shoes plus socks when mixing or applying this product.

PRODUCT INFORMATION

IMMERSE™ 80/20 is a high-quality, general purpose nonionic surfactant. *IMMERSE 80/20* may be used with any insecticides, fungicides, herbicides, acaricides, defoliants, desiccants and wettable powders. *IMMERSE 80/20* will increase pesticidal activity by increasing the wetting and spreading ability of the spray solutions.

Suggested Use Rates of *IMMERSE 80/20*

APPLICATIONS	PER 100 GALLONS OF MIX
Herbicides	1-4 pints
Insecticides Fungicides Acaricides	3-8 fluid ounces
Defoliants Desiccants Wettable Powders	1-2 pints

Variations in conditions of use can cause some variation in the amount of this product required. The minimum required to give a smooth, uniform coverage usually gives the most effective results. Not for aquatic use.

MIXING

Follow all instructions on the label for the pesticide being used. If the pesticide label does not give instructions use the WALES method:

- 1) Wettable powders then dry flowables, agitating constantly and allowing each powder to disperse thoroughly before adding the next.
- 2) Adjuvants such as anti-foams and water conditioners but not surfactants.
- 3) Liquid and soluble products.
- 4) Emulsifiable concentrates.
- 5) Surfactants. Add *IMMERSE 80/20* as a surfactant last before the final addition of water using the suggested use rate or the amount recommended on the pesticide label. Pesticide label rates always take precedence over these suggested use rates.

STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage and disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
