ADDITIONAL FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

GENERAL INFORMATION

TALUS HC is a highly concentrated, multifunctional MSO-based spray adjuvant developed as a penetrating surfactant concentrate with superior wetting and penetrating characteristics. *TALUS HC* is designed as a replacement for non-ionic surfactants and crop oil concentrates in liquid spray mixtures. When used as directed, *TALUS HC* maximizes the activity and effectiveness of certain herbicides in post emergence applications. Therefore, care must be taken in treating sensitive crops during periods when plants are subjected to drought stress, high temperatures, and high humidity.

DIRECTIONS FOR USE

Use *TALUS HC* at a rate of 4-8 oz./acre as a replacement for non-ionic surfactants and crop oil concentrates. The high end of the recommended use rate may be necessary during periods when plants are subjected to extreme stress or weed populations.

The addition of a liquid fertilizer (28-32% nitrogen solution) may also be required to improve control under extreme environmental conditions. Always add *TALUS HC* last to the spray mixture and provide good agitation.

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions have precedence over DIRECTIONS FOR USE referred to on this label.

STORAGE AND DISPOSAL INFORMATION

STORAGE: Store product in original container only, away from other pesticides, fertilizers, food or feed. Do not use, spill, or store near heat or open flame. Keep this container closed when not in use and take care to prevent any water from being introduced to the contents of this container. Avoid storage below 32 °F. If *TALUS HC* is stored below 32 °F, it may become cloudy and thicken. Above 32 °F, *TALUS HC* returns to its normal clear fluid state.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Triple rinse empty container and offer for recycling/reconditioning or dispose of in an approved sanitary landfill.

DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE.

NOTICE OF WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
