

GENERAL RECOMMENDATIONS

Levesol™ is formulated for use as an in-furrow fertilizer that can be applied alone or added to other starter fertilizers in cropping systems that benefit from additional nutrient accessibility to the plant. **Levesol** contains nitrogen from urea and Ortho-Ortho EDDHA. Ortho-Ortho EDDHA will also form a chelate with micronutrients such as iron, manganese, zinc and copper. This formation of a chelate will minimize the formation of insoluble bonds with phosphate such as zinc phosphate. **Levesol** should be used as an in-furrow application to any food or fiber crop where increased availability of nutrients in the soil would be beneficial.

INSTRUCTIONS

Refer to your state requirements for specific crop recommendations or use in accordance with recommendations of a qualified individual such as a certified crop advisor, university extension representative, trained agronomist or follow guidelines of an approved nutrient management plan.

-Furrow Soil Application Directions:

Levesol may be applied in-furrow mixed with water or with in-furrow fertilizers as part of a complete soil fertility program. The use rate of **Levesol** is 64 oz/A. Total volumes of fertilizer or fertilizer and water mixtures are recommended to be 5-6 gal/A to assure maximum distribution within the furrow.

Levesol can be blended with fertilizers and many crop protection chemicals. In the absence of published information, check compatibility by performing a jar test prior to mixing. Add **Levesol** to liquid fertilizer and agitate mildly until thoroughly mixed. Only mix as much final product as is intended to be used within the day of application. If application is delayed overnight or longer, mixture should be agitated mildly once every 24 hours until applied.

Levesol is a low-salt fertilizer additive that is very safe to the seed. However, **Levesol** should not be used in any situation where crop response from starter fertilizers is expected or is likely.

For use in Wisconsin: The Nutrient Application Guidelines for Field, Vegetable, and Fruit Crops in Wisconsin - publication A2809 indicates that Corn will respond to the nutrient found in **Levesol**. This product is intended for use in mixing and blending with other fertilizer materials, to produce fertilizer whose total primary nutrient guarantees equal or exceed 24%. All nutrients in starter fertilizers are to be counted against the amounts of nutrients recommended based on the crop to be grown and soil test results for all crops in Wisconsin.

LEVESOL™

Grade 2-0-0

GUARANTEED ANALYSIS

Total Nitrogen (N) 2%
1.5% Urea Nitrogen
0.5% Other Water Soluble Nitrogen

Derived from urea and Ortho-Ortho EDDHA.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN, PETS AND LIVESTOCK

Refer To Safety Data Sheet (SDS) For Important, Environmental, Safety, and Health Information

CAUTION: This material should only be used as recommended. It may prove harmful when misused.

- Avoid contact with eyes
- Avoid contact with skin
- Avoid breathing fumes or spray mist
- Do not swallow
- Wash thoroughly after handling

First Aid: In the event of eye and/or skin contact – flush affected areas with large quantities of plain water. If irritation persists seek medical attention.

Personal Protective equipment:

Wear gloves and protective clothing. Wear eye protection (glasses, goggles or face shield)

PRECAUTIONARY STATEMENTS

CAUTION: **Levesol** is considered to be a low health hazard and a non-inhalation hazard. Always follow good industrial hygiene practices. Harmful if swallowed. If conscious, immediately give large quantities of water and induce vomiting. Seek medical attention immediately. Avoid contact with skin. In the event of skin contact, flush immediately and thoroughly flush with water. Causes eye irritation. Flush eyes immediately and thoroughly with water for 15 minutes. If irritation persists, seek medical attention.

STORAGE

Levesol freezes at 32° F. If allowed to freeze, thaw completely prior to use.

DISPOSAL

Do not reuse empty container. Triple rinse (or equivalent) after mixing and loading product. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrecycling.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state, and federal laws and regulations.

ENVIRONMENTAL HAZARD

In the case of a spill, contain spill and maximize recovery.

CONDITIONS OF SALE AND WARRANTIES

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. SELLER MAKES NOT OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. IN NO CASE WILL SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE, OR INCORRECT USE OF THIS PRODUCT.
