3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW: May cause moderate eye irritation. Degree of injury will depend on amount of material that gets into the eye and the speed and thoroughness of the first aid treatment. Excessive inhalation exposure may cause irritation to upper respiratory tract and central nervous system effects. Brief contact may cause mild skin irritation and while prolonged skin contact is unlikely to result in absorption of harmful amounts, it may cause moderate skin irritation. Small amounts swallowed incidental to normal handling operations are not likely to cause injury; however, swallowing larger amounts may cause injury.

SYMPTOMS OF OVEREXPOSURE: Symptoms of overexposure are headaches, dizziness, numbness, nausea, lack of coordination or other central nervous system effects.

HAZARDOUS DECOMPOSITION PRODUCTS: Thermal decomposition creates toxic and corrosive fumes.

4. FIRST AID MEASURES

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: If a large amount has been ingested, lavage stomach. An aqueous suspension of activated charcoal can be given to absorb remaining toxicant. Treat symptomatically.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact PROSAR (800) 308-5391 for emergency medical treatment information.

5. FIRE FIGHTING MEASURES

FLASH POINT: 87°C (189°F)

FLAMMABLE LIMITS: Not applicable.

EXTINGUISHING MEDIA: Use carbon dioxide, dry chemical, water spray or foam.

HAZARDOUS DECOMPOSITION PRODUCTS: Thermal decomposition may yield irritating and toxic fumes.

FIRE-FIGHTING INSTRUCTIONS: Remain upwind and avoid breathing smoke. Use water spray to cool containers exposed to fire. Wear self-contained breathing apparatus (pressure-demand MSHA/NIOSH approved or equivalent) and full protective clothing. Prevent contamination of water by diking the area to contain run-off and dispose of fire control water appropriately.

NFPA RATINGS: Health: 2 / Flammability: 2 / Reactivity: 0

6. ACCIDENTAL RELEASE MEASURES

Clean up spills immediately observing the precautions in Section 8 of this MSDS. Isolate the hazard area and keep unnecessary and unprotected personnel from entering. Prevent material from contaminating soil or from entering sewage and drainage systems and bodies of water.

Dike spillage, pick up with suitable absorbent material and place in a compatible disposal container. After removal, wash contaminated area thoroughly with hard water detergent (e.g., Tide, Joy, Spic and Span) and collect wash water using additional absorbent material and place into a compatible disposal container. Seal containers and arrange for approved disposal.

7. HANDLING AND STORAGE

Do not allow to come into contact with skin, eyes and clothing. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Store in a cool, dry place away from ignition sources and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a secured storage area. Do not allow to contaminate food or feed and segregate from textiles and other similar materials.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Facilities storing or utilizing this material should be equipped with an eyewash station and a safety shower.

Protective Clothing: Wear long-sleeved shirt, long pants, shoes plus socks, and chemical resistant gloves such as nitrile, butyl, neoprene or barrier laminate.

General: Wash thoroughly with soap and water after handling. Discard clothing and other absorbent materials that have been heavily contaminated with this product; do not reuse them. Follow the manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.
