Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse .

## 4. First aid measures:

After inhalation: Remove patient to fresh air, allow to rest and keep warm. If specific symptoms are evident, call a poisons control center or doctor for treatment advice.

After skin contact: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

After eye contact: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

After swallowing: DO NOT induce vomiting! Rinse mouth out with water, but do not give anything to drink. Call a poison control center or doctor for treatment advice.

Extinguishing media:	For small fires use foam, carbon dioxide, halon or dry powder extinguishers. For large fires use foam or water-fog; avoid the use of water jets. Keep fire exposed containers cool by spraying with water.
Fire fighting equipment:	In the event of a fire, wear full protective clothing and approved self-contained breathing apparatus. Evacuate the area and fight fire from a safe distance.
Special exposure hazards:	Water used for extinguishing must be retained and not allowed to contaminate water courses.
Products of combustion and decomposition	Oxides of nitrogen produced in fire.

## 5. Accidental release measures:

Personal precautions:	See Section 8 "Exposure control/personal protection" for details.
Environmental precautions:	Do not contaminate water when disposing of equipment washwaters.
Methods for cleaning up:	On soil: Absorb into chemical absorbent, dry earth or sand. Transfer to a closable, labeled salvage container for disposal by an appropriate method. See Section 13.  On water: None available.
