

Safety Data Sheet

JOURNEY HERBICIDE

Revision date : 2010/07/14

Version: 1.0

Page: 1/9

(30237034/SDS_CPA_US/EN)

1. Product and Company Identification

Use: herbicide

Company

BASF CORPORATION
100 Campus Drive
Florham Park, NJ 07932, USA

24 Hour Emergency Response Information

CHEMTREC: 1-800-424-9300
BASF HOTLINE: 1-800-832-HELP

Substance number:	000000159881
Molecular formula:	C ₁₄ H ₁₇ N ₃ O ₃ (imazapic) C ₃ H ₉ N C ₃ H ₈ N O ₅ P (glyphosate)
Chemical family:	imidazole derivative, phosphanoglycine
Synonyms:	Imazapic and glyphosate

2. Hazards Identification

Emergency overview

CAUTION:
Causes eye irritation.
KEEP OUT OF REACH OF CHILDREN.
KEEP OUT OF REACH OF DOMESTIC ANIMALS.

See Product Label for additional precautionary statements.

State of matter: liquid
Colour: pale straw yellow
Odour: characteristic

Potential health effects**Primary routes of exposure:**

Routes of entry for solids and liquids include eye and skin contact, ingestion and inhalation. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquified gases.

Acute toxicity:

Relatively nontoxic after single ingestion. Relatively nontoxic after short-term skin contact. Relatively nontoxic after short-term inhalation.

Irritation / corrosion:

May cause slight but temporary irritation to the eyes. May cause slight irritation to the skin.

Sensitization:

Skin sensitizing effects were not observed in animal studies.

Safety Data Sheet

JOURNEY HERBICIDE

Revision date : 2010/07/14
Version: 1.0

Page: 2/9
(30237034/SDS_CPA_US/EN)

Potential environmental effects

Aquatic toxicity:

Acutely harmful for aquatic organisms.

Terrestrial toxicity:

With high probability not acutely harmful to terrestrial organisms.

3. Composition / Information on Ingredients

<u>CAS Number</u>	<u>Content (W/W)</u>	<u>Chemical name</u>
104098-48-8	8.13 %	imazapic
38641-94-0	21.94 %	glyphosate-isopropylamine
	69.93 %	Proprietary ingredients

4. First-Aid Measures

General advice:

First aid providers should wear personal protective equipment to prevent exposure. Remove contaminated clothing. Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or physician for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

If inhaled:

Remove the affected individual into fresh air and keep the person calm.

If on skin:

Rinse skin immediately with plenty of water for 15 - 20 minutes.

If in eyes:

Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing.

If swallowed:

Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Do not induce vomiting. Have person sip a glass of water if able to swallow.

Note to physician

Antidote:	No known specific antidote.
Treatment:	Treat symptomatically.

5. Fire-Fighting Measures

Flash point:

Non-flammable. Information applies to the solvent.

Autoignition:

Based on the water content the product does not ignite.

Self-ignition temperature:

not self-igniting

Suitable extinguishing media:

foam, dry powder, carbon dioxide, water spray

Hazards during fire-fighting:

carbon monoxide, carbon dioxide, Hydrocarbons, nitrogen oxides, phosphorus oxides
If product is heated above decomposition temperature, toxic vapours will be released.

Safety Data Sheet

JOURNEY HERBICIDE

Revision date : 2010/07/14

Version: 1.0

Page: 3/9

(30237034/SDS_CPA_US/EN)

Protective equipment for fire-fighting:

Firefighters should be equipped with self-contained breathing apparatus and turn-out gear.

Further information:

Evacuate area of all unnecessary personnel. Contain contaminated water/firefighting water. Do not allow to enter drains or waterways.

6. Accidental release measures

Personal precautions:

Take appropriate protective measures. Clear area. Shut off source of leak only under safe conditions. Extinguish sources of ignition nearby and downwind. Ensure adequate ventilation. Wear suitable personal protective clothing and equipment.

Environmental precautions:

Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater. Contain contaminated water/firefighting water.

Cleanup:

Dike spillage. Pick up with suitable absorbent material. Place into suitable containers for reuse or disposal in a licensed facility. Spilled substance/product should be recovered and applied according to label rates whenever possible. If application of spilled substance/product is not possible, then spills should be contained, solidified, and placed in suitable containers for disposal. After decontamination, spill area can be washed with water. Collect wash water for approved disposal.

7. Handling and Storage

Handling

General advice:

RECOMMENDATIONS ARE FOR MANUFACTURING, COMMERCIAL BLENDING, AND PACKAGING WORKERS. PESTICIDE APPLICATORS & WORKERS must refer to the Product Label and Directions for Use attached to the product for Agricultural Use Requirements in accordance with the EPA Worker Protection Standard 40 CFR part 170. Ensure adequate ventilation. Provide good ventilation of working area (local exhaust ventilation if necessary). Keep away from sources of ignition - No smoking. Keep container tightly sealed. Protect contents from the effects of light. Protect against heat. Protect from air. Handle and open container with care. Do not open until ready to use. Once container is opened, content should be used as soon as possible. Avoid aerosol formation. Avoid dust formation. Provide means for controlling leaks and spills. Do not return residues to the storage containers. Follow label warnings even after container is emptied. The substance/product may be handled only by appropriately trained personnel. Avoid all direct contact with the substance/product. Avoid contact with the skin, eyes and clothing. Avoid inhalation of dusts/mists/vapours. Wear suitable personal protective clothing and equipment. DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. Otherwise the product may react with such containers and tanks to evolve hydrogen gas that may form a highly combustible gas mixture. This gas mixture could flash or explode, causing serious personal injury, if ignited by open flame, spark, welder's torch, lighted cigarette or other ignition source.

Protection against fire and explosion:

The relevant fire protection measures should be noted. Fire extinguishers should be kept handy. Avoid all sources of ignition: heat, sparks, open flame. Sources of ignition should be kept well clear. Avoid extreme heat. Keep away from oxidizable substances. Electrical equipment should conform to national electric code. Ground all transfer equipment properly to prevent electrostatic discharge. Electrostatic discharge may cause ignition.

Storage

General advice:

Keep only in the original container in a cool, dry, well-ventilated place away from ignition sources, heat or flame. Protect containers from physical damage. Protect against contamination. The authority permits and storage regulations must be observed.

Safety Data Sheet

JOURNEY HERBICIDE

Revision date : 2010/07/14
Version: 1.0

Page: 4/9
(30237034/SDS_CPA_US/EN)

Storage incompatibility:

General advice: Segregate from incompatible substances. Segregate from foods and animal feeds. Segregate from textiles and similar materials.

Storage stability:

The stated storage temperature should be noted.

Temperature tolerance

Protect from temperatures below: 0 °C

Changes in the properties of the product may occur if substance/product is stored below indicated temperature for extended periods of time.

Protect from temperatures above: 40 °C

Changes in the properties of the product may occur if substance/product is stored above indicated temperature for extended periods of time.

8. Exposure Controls and Personal Protection

Users of a pesticidal product should refer to the product label for personal protective equipment requirements.

Advice on system design:

Whenever possible, engineering controls should be used to minimize the need for personal protective equipment.

Personal protective equipment

RECOMMENDATIONS FOR MANUFACTURING, COMMERCIAL BLENDING, AND PACKAGING WORKERS:

Respiratory protection:

Wear respiratory protection if ventilation is inadequate. Wear a NIOSH-certified (or equivalent) TC23C Chemical/Mechanical type filter system to remove a combination of particles, gas and vapours. For situations where the airborne concentrations may exceed the level for which an air purifying respirator is effective, or where the levels are unknown or Immediately Dangerous to Life or Health (IDLH), use NIOSH-certified full facepiece pressure demand self-contained breathing apparatus (SCBA) or a full facepiece pressure demand supplied-air respirator (SAR) with escape provisions.

Hand protection:

Chemical resistant protective gloves, Protective glove selection must be based on the user's assessment of the workplace hazards.

Eye protection:

Safety glasses with side-shields. Tightly fitting safety goggles (chemical goggles). Wear face shield if splashing hazard exists.

Body protection:

Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.

General safety and hygiene measures:

Wear long sleeved work shirt and long work pants in addition to other stated personal protective equipment. Work place should be equipped with a shower and an eye wash. Handle in accordance with good industrial hygiene and safety practice. Personal protective equipment should be decontaminated prior to reuse. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks). Take off immediately all contaminated clothing. Store work clothing separately. Hands and/or face should be washed before breaks and at the end of the shift. No eating, drinking, smoking or tobacco use at the place of work. Keep away from food, drink and animal feeding stuffs.

9. Physical and Chemical Properties

Form: liquid

Safety Data Sheet

JOURNEY HERBICIDE

Revision date : 2010/07/14

Page: 5/9

Version: 1.0

(30237034/SDS_CPA_US/EN)

Odour:	characteristic	
Colour:	pale straw yellow	
pH value:	6.7	(21.5 °C)
Freezing point:	approx. 0 °C	(1,013.3 hPa) Information applies to the solvent.
Boiling point:	approx. 100 °C	(1,013.3 hPa) Information applies to the solvent.
Vapour pressure:	approx. 23.3 hPa	(20 °C) Information applies to the solvent.
Density:	1.1066 g/cm3	(20 °C)
Viscosity, dynamic:	approx. > 1 mPa.s	
Solubility in water:		dispersible, slightly soluble

10. Stability and Reactivity

Conditions to avoid:

Avoid all sources of ignition: heat, sparks, open flame. Avoid extreme temperatures. Avoid prolonged exposure to extreme heat. Avoid contamination. Avoid electro-static discharge. Avoid prolonged storage.

Hazardous reactions:

The product is chemically stable.

Hazardous polymerization will not occur. No hazardous reactions if stored and handled as prescribed/indicated.

Decomposition products:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated., Prolonged thermal loading can result in products of degradation being given off.

Thermal decomposition:

Possible thermal decomposition products:

carbon monoxide, carbon dioxide, nitrogen dioxide, nitrogen oxide, Hydrocarbons

Stable at ambient temperature. If product is heated above decomposition temperature toxic vapours may be released. If product is heated above decomposition temperature hazardous fumes may be released.

Corrosion to metals:

Corrosive effects to metal are not anticipated.

Oxidizing properties:

Not an oxidizer.

11. Toxicological information

Acute toxicity

Oral:

Type of value: LD50

Species: rat (male/female)

Value: > 5,000 mg/kg

Inhalation:

Type of value: LC50

Species: rat (male/female)

Value: 2.43 mg/l

Exposure time: 4 h

Dermal:

Type of value: LD50

Species: rabbit (male/female)

Value: > 5,000 mg/kg

Irritation / corrosion

Safety Data Sheet

JOURNEY HERBICIDE

Revision date : 2010/07/14
Version: 1.0

Page: 6/9
(30237034/SDS_CPA_US/EN)

Skin:

Species: rabbit
Result: non-irritant

Eye:

Species: rabbit
Result: non-irritant

Sensitization:

Species: guinea pig
Result: Non-sensitizing.

Genetic toxicity

Information on: imazapic

No mutagenic effect was found in various tests with microorganisms and mammals.

Information on: glyphosate-isopropylamine

No mutagenic effect was found in various tests with microorganisms and mammals.

Carcinogenicity

Information on: imazapic

In long-term studies in rats and mice in which the substance was given by feed, a carcinogenic effect was not observed.

Information on: glyphosate-isopropylamine

In long-term studies in rats and mice in which the substance was given by feed, a carcinogenic effect was not observed.

Reproductive toxicity

Information on: imazapic

The results of animal studies gave no indication of a fertility impairing effect.

Information on: glyphosate-isopropylamine

The results of animal studies gave no indication of a fertility impairing effect.

Development:

Information on: imazapic

No indications of a developmental toxic / teratogenic effect were seen in animal studies.

Information on: glyphosate-isopropylamine

Causes developmental effects in animals at high, maternally toxic doses.

12. Ecological Information

Fish

Information on: imazapic

Acute:

Oncorhynchus mykiss/LC50 (96 h): > 100 mg/l

Information on: glyphosate-isopropylamine

Acute:

static

Lepomis macrochirus/LC50: > 24 mg/l

Oncorhynchus mykiss/LC50: > 86 mg/l

Safety Data Sheet

JOURNEY HERBICIDE

Revision date : 2010/07/14
Version: 1.0

Page: 7/9
(30237034/SDS_CPA_US/EN)

Aquatic invertebrates

Information on: imazapic

Acute:

Daphnia magna/EC50 (48 h): > 100 mg/l

Information on: glyphosate-isopropylamine

Acute:

Daphnia magna/EC50: 780 mg/l

Aquatic plants

Information on: imazapic

Toxicity to aquatic plants:

green algae/EC50 (120 h): > 51.7 µg/l

algae/EC50: > 0.053 ppm

Information on: glyphosate-isopropylamine

Toxicity to aquatic plants:

green algae/EC50: 12.5 mg/l

Non-Mammals

Information on: imazapic

Other terrestrial non-mammals:

mallard duck/LC50: > 5,000 ppm

With high probability not acutely harmful to terrestrial organisms.

Honey bee/LD50: > 100 µg/bee

With high probability not acutely harmful to terrestrial organisms.

Information on: glyphosate-isopropylamine

Other terrestrial non-mammals:

bobwhite quail/LD50: > 2,000 mg/kg

bobwhite quail/LC50: > 4,640 ppm

mallard duck/LC50: > 4,640 ppm

Honey bee/LD50: > 100µg/bee

Degradability / Persistence

Biological / Abiological Degradation

Evaluation: Not readily biodegradable (by OECD criteria).

Other adverse effects:

The ecological data given are those of the active ingredient. Do not release untreated into natural waters.

13. Disposal considerations

Waste disposal of substance:

Pesticide wastes are regulated. Improper disposal of excess pesticide, spray mix or rinsate is a violation of federal law. If pesticide wastes cannot be disposed of according to label instructions, contact the State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container disposal:

Rinse thoroughly at least three times (triple rinse) in accordance with EPA recommendations. Consult state or local disposal authorities for approved alternative procedures such as container recycling. Recommend crushing, puncturing or other means to prevent unauthorized use of used containers. WARNING: Empty containers may still contain hazardous residue. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER,

Safety Data Sheet

(30237034/SDS_CPA_US/EN)

DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION: THEY MAY EXPLODE AND CAUSE INJURY OR DEATH.

RCRA:

This product is not regulated by RCRA.

14. Transport Information

Reference Bill of Lading

15. Regulatory Information

Federal Regulations

Registration status:

Chemical TSCA, US blocked / not listed

Crop Protection TSCA, US released / exempt

OSHA hazard category: Chronic target organ effects reported; Acute target organ effects reported;
ACGIH TLV established; Toxic - inhalation

EPCRA 311/312 (Hazard categories): Acute; Chronic

CERCLA RQ

100 LBS

CAS Number

75-31-0

Chemical name

isopropylamine

State regulations

CA Prop. 65:

There are no listed chemicals in this product.

16. Other Information

Refer to product label for EPA registration number.

Recommended use: herbicide

We support worldwide Responsible Care® initiatives. We value the health and safety of our employees, customers, suppliers and neighbors, and the protection of the environment. Our commitment to Responsible Care is integral to conducting our business and operating our facilities in a safe and environmentally responsible fashion, supporting our customers and suppliers in ensuring the safe and environmentally sound handling of our products, and minimizing the impact of our operations on society and the environment during production, storage, transport, use and disposal of our products.
