FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee). This bulletin must be in the possession of the user at the time of pesticide application. This bulletin has not been submitted to or approved by EPA. Always read and follow label directions. The applicable labeling for all products must be in the possession of the user at the time of herbicide application. It is a violation of federal law to use any registered pesticide product in a manner inconsistent with its labeling.

Group	9	Herbicide
-------	---	-----------

DIRECTIONS FOR USE

AVOID CONTACT OF HERBICIDE WITH FOLIAGE, GREEN STEMS, EXPOSED NON-WOODY ROOTS OR FRUIT OF CROPS, DESIRABLE PLANTS AND TREES, BECAUSE SEVERE INJURY OR DESTRUCTION MAY RESULT.

See "GENERAL INFORMATION" and "MIXING" sections of the label booklet for AquaMaster herbicide for essential product performance information.

For control of Elephant's Ear (*Xanthosoma* spp.), this product may be applied as a 2.0% v/v spray-to-wet solution with 0.5 to 2.0% v/v of a nonionic surfactant containing at least 70 percent active ingredient. Ensure thorough coverage when using spray-to-wet treatments using hand-held equipment.

Applications should be made to actively growing plants. Allow at least 3 days after application before disturbing treated vegetation. This product does not control plants which are completely submerged or have a majority of their foliage under water. Repeated applications will be necessary for control.

NOTE: Based on the maximum annual use rate of glyphosate for these non-crop sites, the combined total for all treatments must not exceed 8 quarts of this product per acre.

Read "LIMIT OF WARRANTY AND LIABILITY" in the label booklet for AquaMaster herbicide before using this product. Those terms apply to this Fact Sheet and, if those terms are not acceptable, return the product unopened at once.
