GENERAL PRECAUTIONS, RESTRICTIONS: See the “ROUNDPAT READY CROPS” section of the label booklet for general precautionary instructions for use in Roundup Ready
crops. The maximum combined total amount of this product that may be applied per year is 5.3 quarts per acre. Drop nozzles are recommended for optimum spray coverage and weed control when corn height is 24 to 30 inches. For corn heights 30 to 48 inches (free standing), apply this product only using ground application equipped with drop nozzles aligned to avoid spraying into the whorls of the corn plants.
