

FIFRA

Section 2(ee) Recommendation

Date: January 30, 2014

Product: Proclaim® Insecticide
EPA Reg. No. 100-904

Use: For Control of First Generation Only Codling Moth in Apples

State: Washington

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply Proclaim at the rate of 4.8 ounces/acre to control first generation codling moth larvae. Apply the first application at codling moth egg hatch or immediately thereafter. Make a second application 7-14 days later.

Do not apply more than 14.4 ounces/acre per season to apples.

The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.

The user should have this recommendation in its possession at the time of use.

This recommendation for use of Proclaim Insecticide is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.
