DIRECTIONS FOR USE

- It is a violation of Federal law to use this product inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.
- The complete DIRECTIONS FOR USE can be found on the currently registered EPA Stamped Label.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.
- To control Lygus Bugs, Aphids, and Spider Mites, apply Fanfare ES at the rate of 3.9 to 6.4 ounces (0.06 to 0.1 lb. active) per acre.
- Apply in a minimum of 8 gallons of water per acre by air equipment and a minimum of 20 gallons of water by ground equipment.
- Fanfare ES may be used only in the pre-bloom and post-bloom period. Bees, used for pollination, should not be introduced into the field within 5 days of the pre-bloom application. Bees, used for pollination, must be removed from the field before post-bloom application is made.
- Follow the spray drift precautions on the EPA registered label.
- Expiration Date: **December 31, 2018** or until otherwise amended, withdrawn, canceled, or suspended.
