

FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

VENUE[®] Herbicide

EPA Reg. No. 71711-25

For Suppression of Marestalk and Fleabane in California

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This labeling and the EPA approved container label must be in the possession of the user at the time of application.

NOTICE: Read the entire First Aid Statements, Precautionary Statements, Directions for Use, and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. Always read and follow the label directions and any precautions or restrictions when applying Venue Herbicide alone or in combination with tank mix partners. Use the most restrictive label directions when Venue Herbicide is applied in tank mixes.

Marestalk and Fleabane can be suppressed in rosettes of 4 inches in diameter or less. Tank mixtures of Venue Herbicide with other labeled broadleaf herbicides may be needed for complete control of these weeds.
