

Supplemental Label

SATELLITE HydroCap^{HERBICIDE}

(EPA Reg. No. 70506-230)

This supplemental label expires on January 30, 2017 and must not be used or distributed after this date.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Follow all applicable directions, restrictions and precautions on the federally-registered label.

This label must be in the possession of the user at the time of pesticide application.

This Supplemental Label contains new or supplemental instructions for use of this product which do not appear on the package material. Follow the instructions carefully. Read the Limitations of Warranty and Liability on the container labeling before buying or using this product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the container label.

REDUCED PREHARVEST INTERVAL IN ALMOND

Application Methods: Apply by ground, chemigation, flood, flooded basin, and gravity flow irrigation systems.

Use Methods, Timings and Use Rates

Apply **Satellite HydroCap Herbicide** either in a single application or sequentially with an interval of 30 days or more. Apply between **2.0 to 6.3 quarts per acre** depending on the grower's weed control program, level of weed infestation, and desired use strategy (see following chart). Do not exceed a total of 6.3 quarts/A per year in almond trees.

Satellite HydroCap Herbicide Use Rate per Acre

Low Use Rate	High Use Rate
2.0 quarts	4.0 to 6.3 quarts

Ground Applications (Bearing)

Use **Satellite HydroCap Herbicide** as a **surface incorporated** or **(surface) preemergence** application. Apply as a broadcast or banded treatment using ground equipment before weed germination. Apply the spray directly to the ground beneath the trees and/or in areas between rows. **DO NOT** apply over the top of trees with leaves or buds or fruit. Contact by the spray mixture with leaves, shoots, or buds may cause injury.

Chemigation Applications

Apply **Satellite HydroCap Herbicide** through sprinkler irrigation and drip irrigation systems. Follow all directions, special instructions and precautions about chemigation in the **Spraying Instructions** section of the **Satellite HydroCap Herbicide** container label. **DO NOT** apply **Satellite HydroCap Herbicide**-treated irrigation water over top of trees with leaves or buds or fruit. Contact with leaves, shoots, or buds by spray mixture may cause injury.

Flood, Flooded Basin, and Gravity Flow Irrigation Systems

Apply **Satellite HydroCap Herbicide** in flood, flooded basin, and gravity flow irrigation systems. Follow all directions, special instructions and precautions about flood, flooded basin, and gravity flow irrigation systems in the **Spraying Instructions** section of the **Satellite HydroCap Herbicide** container label.

Supplemental Label

Restrictions and Limitations

- **DO NOT** apply more than 6.3 quarts of **Satellite HydroCap Herbicide** per acre per year in almond trees.
- **DO NOT** apply by air.
- **DO NOT** feed forage or graze livestock in treated groves or orchards.
- **DO NOT** apply within 60 days before harvest of almonds.
- **DO NOT** apply to newly seeded nursery stock.
