

TECHNICAL INFORMATION BULLETIN
FOR THE USE OF VENERATE™ XC Bioinsecticide
ON GRAPES FOR MANAGEMENT OF LEAFHOPPERS

FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the U. S. Environmental Protection Agency.

FOR USE IN ALL STATES WHERE CROP AND PEST(S) EXIST AND WHERE 2(Ee) RECOMMENDATIONS ARE RECOGNIZED.

VENERATE™ XC

EPA Reg. No. 84059-14

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Crop	Target Disease	Application Method	Product Use Rate per Application	Application Instructions
Grapes	Leafhoppers	Foliar (Ground)	1–8 quarts per acre	<p>Use calibrated power-operated ground equipment capable of providing uniform coverage of the target crop. Orient the boom and nozzles to obtain uniform canopy coverage. A minimum of 10 gallons per acre by ground should be utilized, increasing volume with canopy size and/or pest pressure. Use hollow cone, disc core/hollow cone or twin jet flat fan nozzles suitable for insecticide spraying.</p> <p>Under heavy pest populations, use the higher label rates, shorten the spray interval, increase the spray volume to improve coverage, and/or apply in tank mixture with another product that has activity on the target pest.</p> <p>Adjuvants may be used to improve control of insect pests in situations where achieving uniform plant coverage is difficult such as closed crop canopy or dense foliage.</p>
		Foliar (Aerial)	1–8 quarts per acre	<p>For aerial applications, apply this product in a minimum of 5 gallons water per acre.</p> <p>Do not spray when wind speed favors drift beyond the area intended for use.</p>
VENERATE™ XC has a pre-harvest interval (PHI) of 0 days . Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours .				

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use of this product, which may not appear on the package label. Read and carefully observe the cautionary statements plus all the other information appearing on the product label.

This recommendation must be in the possession of the user at the time of pesticide application.
