Total:	100%

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Safari 20 SG Insecticide before applying. Carefully follow precautionary statements and applicable use directions.
- In the State of New York, Safari 20 SG Insecticide is registered under FIFRA Section 24(c), as a Special Local Need (SLN) registration. For the State of New York, this 24(c) supplemental labeling provides additional use precautions and limitation applicable to the use of Safari 20 SG Insecticide.
- Use of Safari 20 SG Insecticide according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Safari 20 SG Insecticide.
- In the State of New York, Safari 20 SG Insecticide may only be applied as labeled on ornamental plants, flowers and foliage plants in greenhouses. Outdoor use is prohibited.
- Do not expose honeybees to pollen and nectar of ornamental plants treated with Safari 20 SG Insecticide. On flowering plants that will be grown outdoors after sale (such as bedding plants and hanging baskets), do not apply Safari 20 SG Insecticide until after plants have finished flowering and pollen or nectar are no longer present. On flowering plants that are not grown outdoors after sale (such as Poinsettia, Kalanchoe and Cyclamen), non-flowering plants (such as Dieffenbachia, Dracaena and Palm), or ornamental stock plants grown as a source of propagated plant material, Safari 20 SG Insecticide may be applied at any time during production cycle.
- Under the conditions of this SLN label no more than two (2) foliar or broadcast applications and/or one (1) soil application can be made per crop per year.
