

RESTRICTED USE PESTICIDE

DUE TO ACUTE TOXICITY AND TOXICITY TO BIRDS AND MAMMALS

For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's certification.

2(ee) Recommendation

Use information in accordance with Section 2(ee) of FIFRA

DUPONT™ VYDATE® L INSECTICIDE/NEMATICIDE

EPA REG. NO. 352-372

FOR THE SUPPRESSION OF ROOT KNOT (EXCEPT JAVANESE), STING AND LESION NEMATODES IN NON-BEARING FRUIT* (APPLE, CHERRY, PEACH AND PEAR) APPLIED VIA DRIP OR MICROSPRINKLER IRRIGATION SYSTEMS IN THE STATES OF IDAHO, OREGON AND WASHINGTON

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use only in commercial plantings; do not use on home plantings.

Do not apply this product in any way that will contact workers or other persons; either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe; consult the agency responsible for pesticide regulation. Always read this FIFRA 2(ee) bulletin and the entire label on the product container before using this product.

Apply 2-4 pints per acre through either a drip or microsprinkler irrigation system. Applications must thoroughly cover the entire root zone to provide the best performance. Applications can be made every 2 to 3 weeks with the first application when the plant is in active growth phase.

If a VYDATE® L application is made during a normal irrigation cycle, injection should be made during the last third of the cycle. Irrigation systems should run a sufficient amount of time prior to VYDATE® L injection to have all emitters functioning properly. Following injection, the system should be flushed for a minimum of 10 minutes and a maximum of 20 minutes after the last emitter contains VYDATE® L. Allow 24 hours before performing the next irrigation cycle. For best results, the microsprinkler emitter pattern should provide full coverage of the root zone.

VYDATE® L should not be applied at the same time that a drip irrigation line clean out product is being used as performance may be reduced.

Since varieties are numerous, continually change and may respond differently to Vydate® L, test the product on a small scale before proceeding to a large scale application. Varietal response may also vary if Vydate® L is mixed with other products.

* - Non-bearing fruit trees are defined to be trees that will not bear fruit within 12 months after application.

Do not apply more than 4 gallons (32 pints) of VYDATE® L per acre per growing season.

Do not make more than a total of 8 applications per year.

Do not graze livestock in treated orchards.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow to drift to blooming crops or weeds if bees are visiting the treatment area.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 48 hours.

See the VYDATE® L container label for additional requirements on the use of the product via chemigation.

IMPORTANT NOTICE

BEFORE BUYING OR USING DUPONT PRODUCT(S) COVERED BY THIS BULLETIN, READ THIS BULLETIN, AND THE LABELS FOR ALL PRODUCTS REFERENCED IN THIS BULLETIN, IN THEIR ENTIRETY. FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS.

It is a violation of federal law to use this or any other pesticide product in a manner inconsistent with its labeling. This bulletin contains supplemental instructions for use of the referenced DuPont product. Follow these instructions carefully. This bulletin should be in the possession of the user at the time of application.

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using THIS product. DuPont will not be responsible for losses or damages resulting from the use of this product in any manner not specifically directed by DuPont. User assumes all risks associated with such non-directed use. If the terms are not acceptable, return the product at once, unopened, for a refund of the purchase price. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
