RecruitTM IV

EPA Reg. No. 62719-453

Requirements for Baited Sentricon[®] Stations Installed at New Structures

(For Distribution and Use Only in the State of Florida)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- This supplemental labeling provides monitoring requirements for baited Sentricon[®] Stations during the year following installation of the Sentricon System in the state of Florida.
- Before using RecruitTM IV according to this supplemental labeling, read and understand the entire label. Carefully follow all precautionary statements and applicable use directions.

In Florida, the Sentricon System may be installed for protection of new structures in lieu of a preconstruction termiticide treatment. During the year following installation of the Sentricon System, Sentricon stations baited with Recruit IV must be inspected monthly. Thereafter, baited Sentricon stations may be inspected as specified in the "Monitoring" section of the label booklet for Recruit IV.
