THE FOLLOWING RECOMMENDATIONS ARE FOR USE AND DISTRIBUTION IN THE FOLLOWING STATES WHERE PROTECT DF IS CURRENTLY REGISTERED:

AL, AR, AZ, CA, CO, FL, GA, LA, MS, NC, NM, NV, OK, SC, TN, UT AND VA.

EPA REGISTRATION NO. 1001-77

For Control of Rapid Blight (*Labyrinthula* spp.) on golf course greens, tees and fairways of cool season and warm season grasses or their mixtures.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. The following recommendations are made to permit the applications of this product on turf grass in accordance with FIFRA Section 2(ee)(2), which permits the use of pesticide products for control of pests not specifically cited on the label.

ProtectTM DF Turf and Ornamental Fungicide is recommended for the preventive control of Rapid Blight (*Labyrinthula* spp.) on golf course greens, tees and fairways. Follow existing label instructions and apply this product preventively as a foliar spray at a rate of 8 ounces per 1,000 square feet in a minimum of 2 gallons of water (88 gpa). Repeat treatment on a 14 day schedule when environmental conditions are conducive for the development of disease. For best results, follow local extension service recommendations for application timing.

PROTECT DF is compatible in tank mixes with other fungicides that are registered for the control of Rapid Blight. When tank mixing, observe all directions, precautions and limitations on the labeling of all products used.

NOTE: For First Aid Statement and other Precautionary Statements, see label attached to the container. This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA. All applicable directions, restrictions and precautions on the EPA-registered label must be followed. This bulletin must be in the possession of the user at the time of pesticide use.
