**Ant Control in Almond Orchard Floors (Individual Mound Treatment)**

## **Lorsban<sup>®</sup> Advanced**

**EPA Reg. No. 62719-591**

**SLN CA-080013**

**This label expires and must not be distributed or used in accordance with this SLN registration after  
December 31, 2018**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This state-specific Section 24(c) labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

### **Directions for Use**

Apply 1 fl oz of Lorsban Advanced per 4 gallons of water to control southern fire ant colonies (individual mound treatment). Gently sprinkle 1 to 2 gallons of the solution evenly over the surface of each mound and surrounding areas to a 2 foot diameter using a gentle spray (such as a sprinkler can). Avoid disturbing ants. For best results apply in cool weather, 65 to 80°F, or in early morning or late evening hours. Treat new mounds as they appear. Pressurized sprays may disturb the ants and cause migration, reducing product effectiveness. If necessary, re-treat every 14 days.

#### **Specific Use Restrictions:**

- **Worker Restricted Entry Interval:** Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours unless PPE required for early entry is worn.
- **Preharvest Interval:** Do not apply within 14 days of harvest.
- Do not make more than two applications of Lorsban Advanced or any other product containing chlorpyrifos per season to the orchard floor.
- Maximum single application rate is 8 pints of Lorsban Advanced (4 lb ai chlorpyrifos) per acre.
- Do not apply more than 16 pints of Lorsban Advanced (8 lb ai chlorpyrifos) per year to the orchard floor.
- Do not allow meat or dairy animals to graze in treated orchards.
- Growers may not treat the same almond orchard floor under the requirements of any SLN for Lorsban-4E.
