

SUPPLEMENTAL LABELING

READ THE ENTIRE LABEL FOR GLY STAR™ PLUS BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING. Label as used in this supplemental labeling refers to the label booklet for Gly Star™ Plus, container labels and this supplement.

NOTE: USE OF THIS PRODUCT OVER “ROUNDUP READY” OR OTHER GLYPHOSATE TOLERANT CROPS MAY SUBJECT YOU TO THE RISK OF LOSS OF LICENSE RIGHTS TO PATENTED GLYPHOSATE TOLERANCE TECHNOLOGIES AND/OR LEGAL ACTION FOR INFRINGEMENT OF PATENTS TO THOSE GLYPHOSATE-TOLERANT TECHNOLOGIES. IF YOU ARE A LICENSED GROWER UNDER AN AGREEMENT WITH A GLYPHOSATE-TOLERANT SEED MANUFACTURER, PLEASE REFER TO YOUR LICENSE AGREEMENT TO DETERMINE WHETHER YOU MAY USE THIS PRODUCT WITHOUT RISK OF LOSING YOUR LICENSE OR OF LEGAL ACTION AGAINST YOU.

GLY STAR™ Plus

EPA Reg. No. 42750-61

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application.

See “General Information” and “APPLICATION INSTRUCTIONS” sections of the label booklet for Gly Star™ Plus for essential product performance information.

GENERAL INFORMATION

ALBAUGH, INC. RECOMMENDS USE OF THIS PRODUCT FOR POSTEMERGENCE APPLICATION ONLY ON CORN HYBRIDS DESIGNATED AS CONTAINING THE ROUNDUP READY® GENE.

- Applying this product to corn hybrids which are not designated as Roundup Ready® will result in severe crop injury and yield loss.
- The Roundup Ready® designation indicates that the corn contains a patented gene which provides tolerance to Albaugh's Glyphosate brand herbicides. Information on Roundup Ready® corn may be obtained from your seed supplier.

APPLICATION INSTRUCTIONS

The instructions provided in this supplemental label allow application to Roundup Ready corn using drop nozzles through 48 inches. The instructions printed in the "Corn with the Roundup Ready Gene" section of the label booklet for Gly Star™ Plus along with those included in this supplemental label are all applications which can be made onto Roundup Ready corn during the complete cropping season. See the general "Roundup Ready Crops" section of the Gly Star™ Plus label booklet for additional information.

When applied as directed, this product will control labeled annual grasses and broadleaf weeds in Roundup Ready® soybeans. Many perennial grasses and broadleaf weeds will be controlled or suppressed with one or more applications of this product.

There are no rotational crop restrictions following applications of this product.

POSTEMERGENCE WITH DROP NOZZLES

USE INSTRUCTIONS: For Roundup Ready corn from emergence through the V8 stage (8 leaves with collars) or until corn height reaches 30 inches, whichever comes first, this product may be applied over-the-top broadcast or with drop nozzles. When corn height is 24 to 30 inches (free standing), for optimum spray coverage and weed control drop nozzles are recommended. For corn heights 30 to 48 inches (free standing), apply this product only using ground application equipment with drop nozzles adjusted to avoid spraying into the whorls of the corn plants.

Single in-crop applications of this product should not exceed 32 fluid ounces per acre. The maximum combined total of multiple in-crop applications from emergence through the 48-inch stage is 64 fluid ounces per acre.

Read the "CONDITIONS OF SALE AND WARRANTY" in the label booklet for Gly Star™ Plus before using this product. These terms apply to this supplemental labeling and if those terms are not acceptable, return the product unopened at once.
