

**CRUISER® 5FS Insecticide**  
**EPA Registration No. 100-941**

**Supplemental Label: Directions for Use for Corn Seed Treatment**

**IMPORTANT**

**Before using Cruiser 5FS Insecticide as permitted according to this supplemental label, read and follow all applicable directions, restrictions, and precautions on the label on or attached to the pesticide product container.**

This Supplemental Label contains EPA approved use directions that do not appear on the existing container and attached label.

This Supplemental Label must be in the possession of the user at the time of pesticide application.

**DIRECTIONS FOR USE**

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

**Corn (Field, Pop, Seed and Sweet Corn)**

**NOTE:** If corn seed to be treated with Cruiser has existing infestations of stored grain pests, it is recommended that the seed be fumigated prior to treating with Cruiser and bagging.

Consult your Syngenta Seed Treatment representative for recommendations on slurry additives to use during application of Cruiser.

Follow planter manufacturer recommendations for use of talc, graphite, or other hopper box additives at planting.

Use Maxim XL as the broad spectrum seed treatment fungicide with Cruiser applications on corn.

**Field Corn, Pop Corn, Seed Corn, Sweet Corn**

To provide early season protection of seedlings against injury by wireworm, seed corn maggot, southern corn leaf beetle, chinch bug, flea beetle, white grub, and suppression of cutworm, apply Cruiser at 1.28 - 5.1 fl. oz. / 100 lbs. of seed. Do not apply less than 0.125 mg. thiamethoxam per kernel or more than 0.8 mg. thiamethoxam per kernel for use against these pests.

## Field Corn Only

To provide corn rootworm protection in light to moderate infestations and suppression of cutworm, apply Cruiser at 5.1 – 9.0 fl. oz. / 100 lbs. of seed. Do not apply less than 1.125 mg. thiamethoxam per kernel and do not exceed 1.4 mg. of thiamethoxam per kernel.

**NOTE:** When treated according to the above directions for post-planting protection against listed pests, Cruiser will also provide protection during post treatment storage of the seed against damage from the following insects: Indian Meal Moth (*Plodia interpunctella*), Rice Weevil (*Sitophilus oryza*), Red Flour Beetle (*Tribolium castaneum*), and Lesser Grain Borer (*Rhizopertha dominica*).
