**Directions for Use**

---

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Follow all applicable directions, restrictions, and precautions including statements pertaining to the Worker Protection Standards, on the EPA-registered Touchdown Total label.

This labeling must be in the possession of the user at the time of pesticide application.

---

**ONIONS (GROWN FOR PROCESSING ONLY)**

---

Apply 24 – 48 fluid ounces /acre by ground boom equipment only with enough water to provide thorough coverage. Apply in a minimum of 5 gallons finished spray per acre.

Application should be made after the last irrigation. Before application, verify that onion tops have fully dried down and there is no green tissue present. Make the application before removing the top growth of the crop.

**Restrictions:**

1. This product may be applied by ground boom application only.
  2. Chemigation : Do not apply this product through any irrigation system.
  3. Allow a minimum of 30 days between application and harvest.
  4. Do not make pre-harvest applications to onions grown for seed.
  5. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.
